FIELD MONUMENTS

HIGHLAND REGIONAL COUNCIL

'Centred on NC 213 515, along a gentle S-facing slope, is an extent of heather-covered stony mounds with fairly clear ground in between; at the extreme SW a stony scarp appears unmistakeably to be a positive lynchet. The pattern is typical of a field system commonly found in association with hut circles.' (OSFI:JM:9.6.1980) Extent delineated on (6") record shee t.
