TEXT

(NC 76683II3) Enclosure (NR). (I)

'This is a hut-circle found during field investigation. The position, high up in gentle-sloping even ground approaching a water-shed, is particularly exposed. The only sign of associated cultivation is six low stone clearance mounds nearby. The hut, well-defined, is 12.0 by 11.0 inside a peat-silted wall reduced to 0.3m high and spread on average to 2.0m broad. An entrance from the NE has two lining slabs, slightly displaced, in its north edge.'
