52 TEXT

"NC 94221110. A small field system, of a type normally found in association with hut circles (though none is visible), was found during fieldwork on a SE-facing slope, just outside a depopulated settlement. It comprises cleared ground defined mainly by stone heaps, some connected by lynchets, and at least two low field walls. One or two cultivation plots 20.0m by 15.0m are discernible."
(OSFI:JM:20.2.1976)
