Re: SMR/ENQ/JW/JW

Dear Mr. Wood:

Thank you for your letter of the 10th. June. I must admit I was beginning to wonder, but now this is July and I wonder no longer..

I have worked up plans for the Broch and one of the Cairns at Yarrow and have done the same for the circles at Clava. I photostatically enlarged the small drawings from the available pamphlets and these have been quite adequate for my purposes. Enclosed are some sketches showing the different ways I am using the information. For lecture purposed I have put the work onto three sheets of clear plastic for "overhead" projection. The first sheet shows the basic plan then the second shows the energy lines and is laid over the basic plan and finally the third sheet which goes over it all shows the various **Runic** essences or energies applying to various locations. Also enclosed is a brief description of the runic energies.

The sites I am presently interested in are Templewood at Kilmartin, Tomnaverie, Ease(er) Aquhotheries, Leonhead at Daviot, and Corrimony Cairn. Pamphlets showing a small drawing of the sites are quite adequate as mentioned. I can enlarge them on a photostat machine.

I seem to have either East or Easter at Aquhotheries, the book says East and the sign at the location shows Easter.

Yours truly,

David E. Stanger.
