52 TEXT

"At NH 7010 0008 is a hut circle about 8.5m in diameter between the centres of a ruined wall which is completely destroyed in the SE arc. No entrance evident. Some 60m SSW are traces of what may be another denuded oval house (about 9.5m E-W b' 8.0m). In the near vicinity are several stone clearance heaps from contemporary cultivation. (OSFI: AA: 16.5.1974.)
