

DESCRIPTION

Grassland
A rig and furrow plot approximately 2m x 7m, situated on a slope west of the A82 boundary and consisting of possibly 3 rigs. The site is well-lit and difficult to define. The southern eastern edge of the plot is adjacent to a small stream. The rig is oriented east-west. The eastern boundary of the plot is adjacent to a dry stone wall and the northern boundary is adjacent to a wire fence. Rig width between furrows - 2m, rig length approximately 2.5m, furrow width 0.5m and rig length approximately 20m.

DESCRIPTION: A weathered and difficult to define rig and furrow

Plot approximately 25 m x 35 m, consisting of possibly 8 rigs running east-west. The plot is situated on a grassed slope west of and adjacent to the A82 Roadway. A large rock is situated on the southern boundary. Rigs with approximately 2 m - 2.8 m, Rig wavelength: 2.7 m - 3.3 m, Furrow width, 0.6 m.

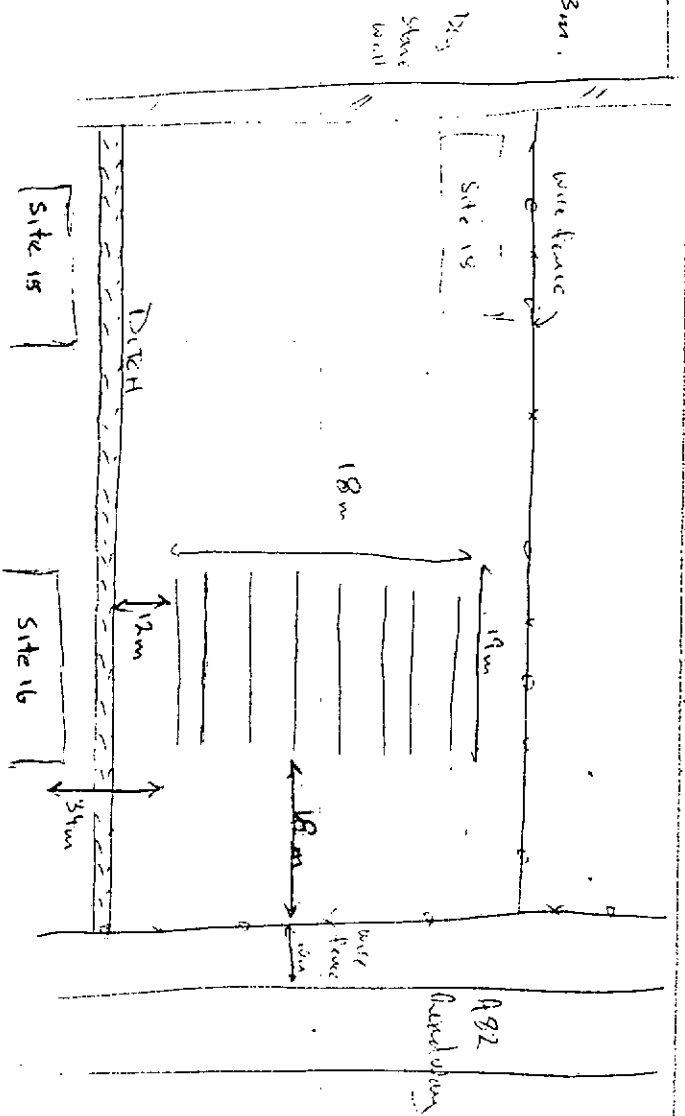

Collected on 24/9/95.

1156 SITE 16: RIG AND FURROW PLOT NN 116 5699

DESCRIPTION: A rig and furrow plot, approximately 18 m x 19 m, with eight ridges running east-west, situated on a slope approximately 28 m west of the A82 roadway. Rig width: 2 m. Rig wavelength: 2.3 m. The area is grassed and the plot adjacent to a wire fence on its northern and eastern sides. A ditch is situated 12 m to the south of the plot.

Summerville, Fife and 26/10/95, Fife 17 3.5/5/95.

DESCRIPTION:

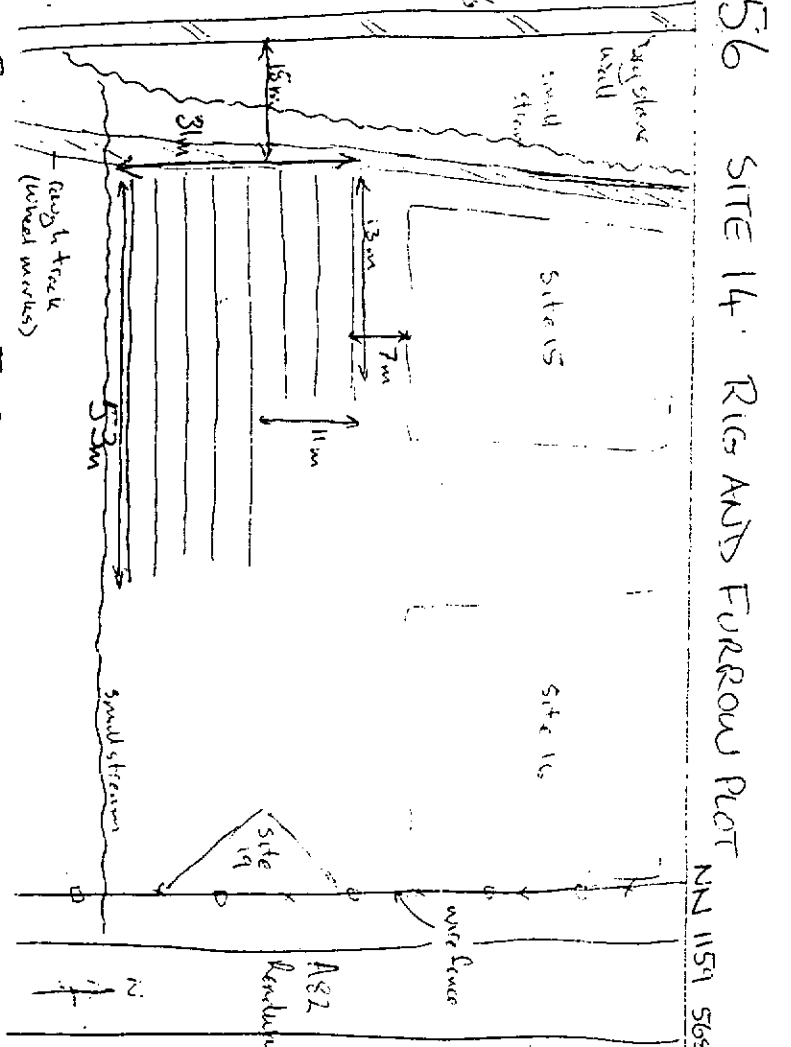

Rig and Furrow plot weathered and difficult to define. 53m x 31m, consisting of possibly 8 rigs running east-west on a grassed slope west of the AS2 Boundary. The plot is bordered on its southern boundary by a ditch and small stream, and on its west boundary by a rough track and a small stream. A dig stake wall is situated 18m to the west of the plot. The rig width is approximately 2m-3.5m, rig wavelength approximately 3.2m - 4.5m, furrow width 0.6m, rig length approximately 13m - 53m.

Site 15: Rig and Furrow Plot 1/7/95

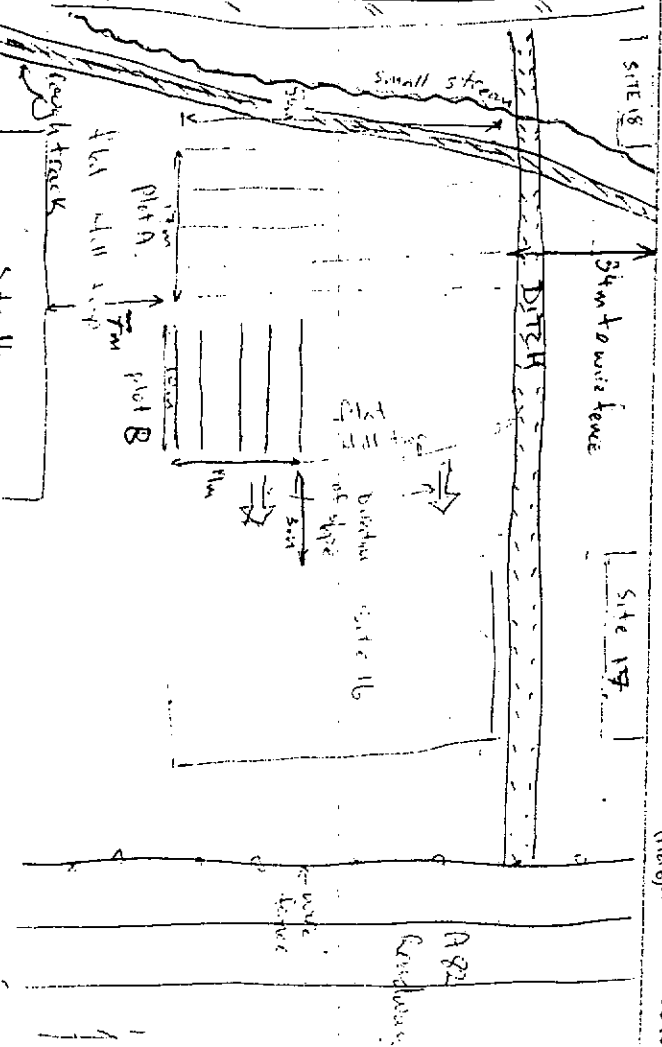

DESCRIPTION:

Plot A: A rig and furrow plot 17m x 53m on flat land on a hill top consisting of possibly 5 rigs running north-south. The plot is bordered on its western side by a rough track and a small stream and bordered on its northern side by a ditch. The rigs are weathered and difficult to define. Rig width: 2.3m-3m, rig wavelength: 3m-3.8m, furrow width: 0.6m, rig length approximately 13m.

Description: 6 rigs forming east-west and situated on a slope east

of Ahuacran. Total plot dimensions 17m x 9m. The eastern end of the plot is elevated and bordered by a small stream. The southern boundary is adjacent to a big stone wall. The area is grassed, the area to the east is brushy ground.

Rig width 1.2m - 2m, rig wavelength approximately 2.5m - 3.5m. Furrow width: 5.0m - 6.7m, rig length approximately 9m.

Approximate rig width = 2m.

Description: Possibly 7 rigs forming south-east-north-east on a

sloping bank, west of Ahuacran. The rigs are very weathered and difficult to measure. The area of the plot is approximately

3.3m x 3.0m. A large rock outcrop is situated in the south-west corner of the plot. Approximate wavelength of the rigs is 2.2m - 2.5m.

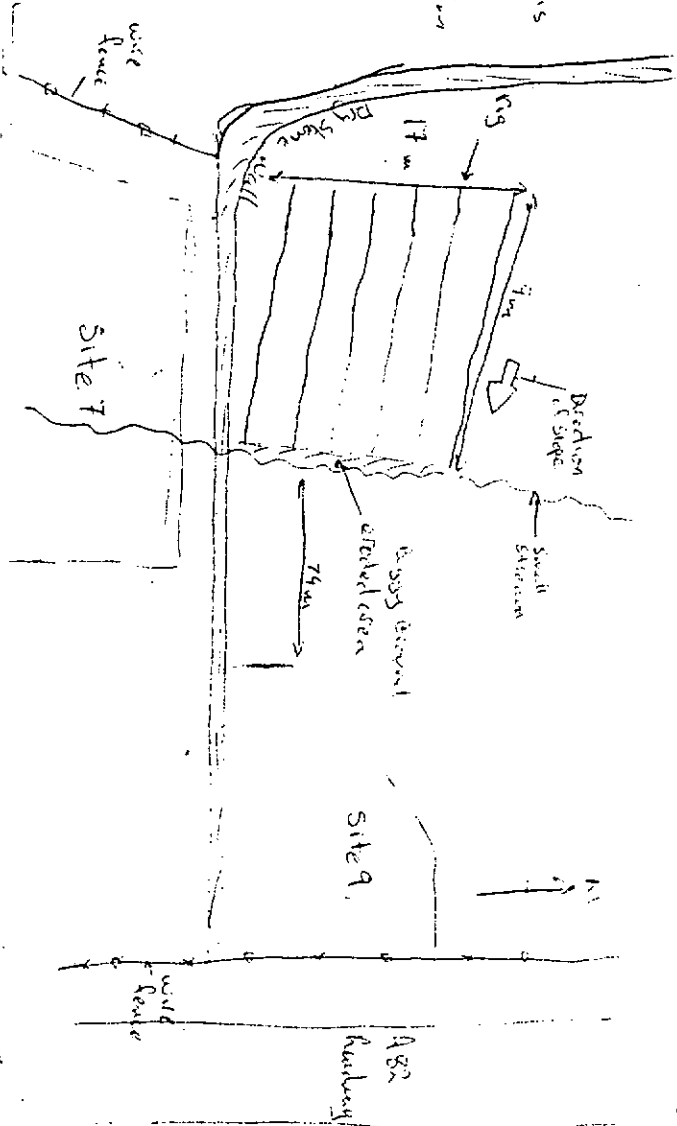

An eastern bank or boundary is situated on the north and north-west boundaries of the plot. The plot is situated adjacent to the

A82 road and has a dry stone wall on its southern boundary.

Approximate rig width = 2m.
