

Site 3: Two Rig and Furrow Plots

DESCRIPTION:

A weathered, faint and difficult to define rig and furrow plot dimensions approximately 8m x 12m, with possibly between 4 and 7 rigs running east-west. The plot is situated on slightly sloping almost flat land adjacent to the western side of the A82 Roadway. The area is grassed and boggy. A drainage ditch is situated on the north and east boundaries of the plot. Rig width 4m - 4.5m, rig wavelength approximately 4.3m.

Field Notes 2013/14

DESCRIPTION:

Plot A: A weathered and difficult to define rig and furrow plot approximately 10m x 18m consisting of possibly 6 rigs running east-west. The plot is situated on slightly sloping ground adjacent to the A82 Roadway. A small stream is situated to the west of the plot. Rig width 2.5m - 3.2m, rig wavelength 3m - 3.5m, furrow width approximately 0.5m.

Plot B: A weathered, faint and difficult to define rig and furrow plot approximately 9m x 15m consisting of possibly 3 to 4 rigs running east-west on slightly sloping land adjacent to the A82 Roadway. A small stream is located to the west of the plot. Rig width: 2.2m - 3.2m, rig wavelength approximately 2.5m, furrow width: 0.5m. A ditch is located to the north of the plot.
